576	..Combined with a different art device	173	..Separate decorative means secured to attaching means
577	..Convertible to a different art device	174	..Curved arm hinged to watchcase and biased by separate means toward wrist clasping position
153	...Backpack or component thereof	175	..Expandable strap
154Forming tent or component thereof	176	..Attaching means tightener other than buckle with pivoting tongue
155Forming seat or component thereof	177	..Separate fastener securing watch pin or bail bar to end of attaching means
156Forming bed or litter or component thereof	178	..Multiple ply strap
578	..Carrier having a rearrangeable strap	179	..Rigid or semirigid band or arm
579	...Multiple rearrangeable straps	180	.Watch attaching means secured to watchcase pin
580	..Multiple independently usable straps	181	.Head supported
581	..Carrier having a rearrangeable receiver	182	.Article or carrier attached to garment by means entering hole therein
582	...Multiple rearrangeable receivers	183	.Including magnet
583Receiver detachable and independently usable		
584	..Including means to secure the carrier to a nonanimate support		
585	...Securing means for vehicle attachment		
586	..Collapsible to nonuse position on user's body		
157	.Article or person supported by plural bearers		
158	.Carrier for person		

184	..Including towing means attached to person	603	...Receiver attached at nonend points of flaccid attaching means
185	..Article supported on upper end of elongate stanchion rotatably or swingably mounted on attaching means	604Receiver and attaching means relatively movable
186	..Canopy support	605Detachable
187	..Plural stanchions holding canopy	606	...Single attaching means crossing both shoulders and extended circumferentially of torso under arms
188	..Attaching means looped around neck or crossing shoulder	607	...Carrier having single shoulder or neck engaged attaching means with receiver attached to terminal end of attaching means
189	...Rigid attaching means		
190	...Two flaccid attaching means crossing different shoulders		
191	..Article held by receiver		
192	..Handgun receiver usable on either side of torso	608Having at least three distinct attachment points between the attaching means and the receiver
193	..Handgun receiver having vertically extending side edges spaced apart or separable for withdrawal of handgun therebetween	609Separate receivers attached to each end of attaching means
587	..Holding article in concealment (e.g., money belt worn under clothing or having hidden pocket, etc.)	610Terminal ends attached to receiver wall on opposite sides of the receiver opening
194	..Receiver attached to clothing by opposed means gripping gathered material	611Terminal ends attached to frame on receiver
195	..Receiver supported for movement around torso by rigid means fixed on belt	612Terminal ends extending down sides of receiver
196	..Means for ejecting article or moving it to accessible position	613One terminal end attached by receiver opening and the other terminal end attached at a point spaced from the opening
197	..Receiver rotatably or swingably mounted on attaching means	614	...Having particular connection between receiver and terminal end
198	...Handgun receiver	615Shoulder or neck engaged attaching means held in aperture in receiver wall
199	...Closable receiver	616Connection via ring (e.g., O-ring; D-ring, etc.)
200	...Receiver holding end of rod-like article	617And clip
201	..Rigid support or attaching means looped around neck or crossing shoulder	618With rotatable locking tongue (e.g., buckle)
600	..Flaccid attaching means looped around neck or crossing shoulder	619Rivet
601	...Attaching means formed as part of or attached to receiver closure	620Loop and hook fastener
602	...Receiver formed as part thereof or continuation thereof attaching means	621Hook
		622Connection is sewn
		623	...Receiver held against upper chest
		624Attaching means encircles arm
		625	...Carrier having single shoulder or neck engaging means and attaching means extending circumferentially of torso

626At least part of the engaging means is directly attached to attaching means	656Drawstring
627	...Two attaching means crossing different shoulders	657Zipper
628Including rigid or semirigid support structure	658Loop and hook fastener
629Rigid or semirigid container	659Buckle
630Insert	217	..Attaching means engaged with finger
631Including means for adjusting receiver relative to the support structure	218	..Attaching means engaged with hand
632Means for adjusting includes a track	219	..Attaching means extending circumferentially of wrist
633Framework	220	...Freely suspended receiver
634Parts of framework movable relative to each other	221	...Attaching means tightener
635Load distributing web extending between vertical frame members	222	..Attaching means extending circumferentially of limb
636Knapsack supported by two upstanding, elongated members having lower ends thereof supported by torso	223	..Plural receiver pockets formed by strip attached to backing at spaced points
637And attaching means extending circumferentially of torso	660	..Receiver mounted on, or formed as part of, means at least partially encircling the torso for attaching carrier to bearer
638Attaching means positioned at chest	661	...With leg strap
639Attaching means is a continuation of the shoulder straps	662	...Torso encircling attaching means provided with cushioning or padding
640Attaching means segmented by receiver	663	...Receiver separate from attaching means
641Having stabilizers connected between attaching means and receiver	664Torso encircling carrier segmented by receiver
642Cushioning	665Removable connection
643In shoulder strap	666Clip or hook attaching receiver to support means on bearer
644Adjacent receiver wall	667Means mounted on or formed as part of clip or hook for further securing or positioning receiver to torso encircling means
645Specified receiver details	668A portion of the clip or hook being surrounded by or inserted into receiver wall
646Receiver positioned in front of bearer	669Spring-biased clip
647Attached on shoulder strap	670Torsion spring
648Attached on attaching means extending circumferentially of torso	671Apertured member or loop attaching receiver to attaching means
649Detachable	672Means mounted on or formed as part of apertured member or loop for further securing or positioning receiver to torso encircling member
650Means attached to receiver wall for retaining article	673Slots in receiver wall
651Strap	674Loop
652Additional pocket		
653Compartmented		
654Receiver closing means		
655Flaps flexed between open and closed positions		

675At least one end of the loop being releasable	255	.Carrier component positioned in aperture in article or in retaining loop mounted thereon
676	...Specified receiver details		
677Receiver hanging below attaching means	256	..Tongue secured to separate support means on bearer
678Receiver formed of rigid material	257	.Flaccid attaching means looped around neck or crossing shoulder
679Rigid material forms a container	258	..Means for adjusting loop size or hanger length of attaching means looped around neck
680Means holding additional article on outside of receiver	259	..Two attaching means crossing different shoulders
681Compartmented receiver	260	...Article-suspending hanger on each side of torso
682Multiple receivers	261	...And framework or rigid shield
683Superposed	262And attaching means extending circumferentially of torso
684Multiple receivers positioned on panel	263Load-distributing web extending between vertical frame members
230	..Receiver held in clothing pocket	264	..Strap cushion or positioner located at shoulder
231	..Receiver shaping means	265	.Rigid support or attaching means looped around neck or crossing shoulder
232	..Receiver holding knife, bayonet, sword, or ice pick	266	..Yoke-type carrier
233	...Components separate to facilitate cleaning	267	.Attaching means extending circumferentially of wrist or limb
234	..Receiver holding axe, hatchet, or splitting wedge	268	.Article held by hook
235	..Receiver closing means	269	.Clip or hook attaching article carrier to support means on bearer
236	...Flap flexed between open and closed positions	270	.Article supported on horizontally extending member
237Plural flaps on same receiver	271	.Rigid means fixedly mounted on article and detachably connectable to support means on bearer
238Handgun receiver	272	.Rigid means connecting carrier components
239Cartridge receiver	400	VEHICLE ATTACHED
240Receiver removably attached to torso-encircling belt	401	.Carrier attached to special purpose vehicle
241	...Hinged to receiver	274	..Carrier attached to golf cart
242	..Retainer or positioner for article held by receiver	29.5	..Carrier attached to railway car
243	...Handgun receiver	402	..Carrier attached to pickup truck
244Retainer extending into trigger guard opening	403	...Carrier attached to truck bed portion of vehicle
245	...Located in receiver	404Receptacle
246	...Flaccid retainer for receiver formed of rigid or semirigid material	405Rack for elongated article
247	..Opposed article gripping means	406	..Carrier attached to aquatic vessel
248	...Formed of wire or rod		
249	..Article held in perforation in receiver wall		
250	..Flaccid strap-type holding means extending across or about article		
251	..Article held in ring or tube		
254	..Article suspended by resiliently stretchable hanger		

407	..Carrier attached to invalid device	445Adjustable to different size cycle
408	..Carrier attached to snowmobile	446Adjustable to different size article
409	..Carrier attached to stroller or baby carriage	447	...With particular connection to cycle
410	..Carrier attached to tractor	448Clamp
411	..Carrier attached to grocery or shopping cart	449Hook

432	...Collapsible	279	.Intercommunicable carriers
433	...Rigid container	280	.Dumpable receiver
434Walls of container formed by wire	281	.Slidable receiver
435With closure	282	.Pivotable or rotatable receiver
436	...Flaccid member	484	.Convertible to different device or a different type of article carrier
437Flaccid container	485	..Convertible to hold different type of article
438With framework	486	..Convertible to different device
439With closure	487	...Different device is furniture
440	...With means for retaining article	488	.Carrier attached to the front or rear end of vehicle
441	..Bracket	489	..Integrated into bumper
442	...Two or more separate carriers used together	490	...Impact receiving carrier or article
443	...Movable	491	...Displaceable bumper
444Collapsible		

492	..Attached at second point on another region of the vehicle	532Laterally extending arms
493	...Carrier attached to vehicle by an elongated, flexible member (e.g., rope, strap, cord, etc.)	533	..Article retaining means
494	...Attached at front and rear of vehicle	534	...Tie-down
495	..Movable carrier or carrier portion	535	...Antitheft means
496	...Movable to within vehicle or under vehicle	536	...Clamp
497	...Collapsible to nonuse position	537	...Article held in channel
498Having plural walls to retain article	309	..Carrier associated with vehicle roof or trunk lid
499Folding platform type	310	..Carrier having structure to facilitate loading (e.g., rollers, tracks, angled sides, etc.)
500	...Adjustable to size of vehicle	311	..Vehicle roof or trunk lid associated carrier mounted within vehicle compartment
501	...Adjustable to size of article	312	...On sun visor
502	...Pivotable	313	...For clothes hangers
503Multiple nonparallel axes	314	..Removable carrier collapsible for storage
504Axis parallel to bumper axis	315	..Carrier with locking means
505Position retaining means	316	..Carrier having wind deflecting means
506Pin and aperture	317	..Carrier and mounting therefor extend across half or less of vehicle
507Abutting stop	318	..Flexible carrier
508Supporting link	319	..Carrier attached to carrier
509Axis perpendicular to bumper axis	320	..Expandable carrier
510	...Rectilinear movement	321	..Carrier having means to adjust position or attitude
511	..Cooperating coupling member on article carrier and vehicle	322	..Single bar-type article supporting means removably attached exteriorly and transversely of vehicle
512	...Attached to bumper or bumper support	323	...Having opposed gripping elements to clamp supported article
513Attached to bumper and a secondary point at end of vehicle	324	..Carrier having article retaining means
514Securing means encircles at least a portion of the bumper	325	..Carrier comprises plurality of spaced members
515Clamp	326	...Members fixedly attached to vehicle surface
516Attached to bumper support	327	..Article supporting portion of carrier contoured to conform to contour of vehicle surface
517	...Fastened through vehicle body	328	..Having enclosure or cover means
518	...Attached to undercarriage	329	..Carrier to vehicle attaching means releasably engages the vehicle proximate the edge of the roof or trunk lid thereof
